1. Introduction

ColsenX (CXP) is a multi-purpose Web3 utility token launched on Binance Smart Chain (BSC). Designed for use in lifestyle, finance, and creator-focused applications, CXP enables decentralized access to payments, trading, and community growth.

It powers the **ColsenLite** ecosystem — a wallet and exchange platform — and is available on DEXs like PancakeSwap.
---

2. Vision and Mission

Vision:
To create a trusted Web3 token that bridges lifestyle, finance, and creator tools for real-world daily use.

Mission:

- Launch a secure and accessible token on Binance Smart Chain.
- Enable CXP as a utility for swaps, payments, and tipping.
- Grow a self-sustaining ecosystem for traders, creators, and digital users.

---
